

### Features

- Automatic Voltage Regulation
- Three Phases (input/output)
- Servo-type Technology
- Wide input voltage range
- By-pass
- Three phases display
- Protection against over-voltages and overloads
- Output: terminals

**GUARANTY**  
**2 years**

Level	10K-TRI	15K-TRI	20K-TRI	30K-TRI	40K-TRI	50K-TRI
Input Voltage (3 Phases)	280~430 V			304~456 V		
Output Voltage(3 Phases)	380 VAC ±4%					
Frequency	50/60 Hz					
Over-voltage protection	426V ±4V			440V ±4V		
Efficiency	> 90%					
Delay	3-7 minutes / 3-7 seconds					
Response time	< 0.5 sec					
Noise	< 50 dB					
Operational temperature	-5~60°C					
Humidity	20~90% (HR)					
Dimensions (cm)	32×32×77	43×36×89	47.5×45×105	59×65×120	59×65×120	
Weight (kg)	42	82.5	98	108	204	208
